Customer Reviews

Worked perfectly, no problems at all! Signed into SAM with the access code, and into my course with my instructor's code. BUT - now SAM is saying I need a new access code. Waiting for Tech Support. IF problem is resolved, I will revise this review.

Neither myself nor anyone in my class was able to log on after the purchase of this so called, "access card". Our professor ended up giving us all full credit for not being able to do our

assignments that came along with this card. As a college student paying my own way through school, it was a fantastic waste of money that I could have put to use elsewhere.

I've received the code, and when I tried it, it said it had been used!

It was the worst purchase I have made through . It isn't their fault but the codes dont work so i would not buy again

If you're new to SAM/Computering class like me & looking for something that allows you to take online exams, projects, & training (which is recommended for most computering classes). This isn't the product to go for. IT ONLY WORKS FOR ONLINE PROJECTS! You don't have access to training or exams & your class will most likely need you to take the exams through SAM. Read it carefully before you purchase these access codes. Because it is nonrefundable once you open and activate the code, unless or other online sources where you purchase your code allows you to.

Don't buy this product! The code doesn't work and is a waste of money! If you can buy it from school I suggest you do that instead. I was very unhappy with this product and it's customer service. Your money won't be refunded... STAY AWAY!!!!

Dont buy this code its useless if you just want to waste money on buying this it will just say already used

does not work !!! only works for the Project assignments, does not work for any other assignments. They should have specified that on here complete waste of money
