I think the most important part of this was not so much the actual answers, but more of learning what the questions were really asking. It made me think like the PMI. This helped my understanding immensely." Ken Gill, PMP - Program Manager, Information Systems Security Operations - Bentonville, Arkansas "Sincere thanks for providing the practice exam questions with same look and feel as the actual exam, even though the exam format was new, I was able to pass by using the practice questions." Jaspal Khanna PMP - IT Manager, Alpha Tours - Dubai (U.A.E) "I passed the PMP exam on my first attempt! Prior to taking the real exam I did a few practice exams each day for a few weeks. As I discovered weak areas (easily identified from the exam results), I reviewed those areas to improve my knowledge. This process worked very well for me without taking a great deal of time each day (important when you have to work for a living)." George K. Hochschwender, PMP - Andover, NJ USA "I passed my PMP certification the first time! I contribute my success to these practice exams

as one of my main study tools. The answer explanations cite locations within PMBOK. From my test experience the practice exam structures are one of the closest I found that mirrored the types of questions on the PMP exam." Teresa Rosenbaum, PMP - PBM Industry - Westminster, California "I found many of your questions to be similar in nature and difficulty to those on the actual exam. My overall score on the practice tests paralleled that on the actual exam. Passing these practice tests prior to sitting the PMI exam allowed me to take it with confidence. I found that taking the practice tests also sped up my answers and I completed the PMI exam with time to spare." D. Shannon, PMP - New Mexico, USA

## **Customer Reviews**

I agree with one of the reviews that all the reviews indeed look fake when glanced at, the first time. I gave my exam day before yesterday, and passed it in my first attempt with barely a week's real prep! I had PMBOK and this book for reference. The difficulty level, structure and content are very similar to the real one. Key things to keep in mind while attempting questions are; 1. Religiously refer to the answers/explanations after the exams. Collate the same with PMBOK. 2. Read the PMBOK

first to get an idea of PM. Attempt a few exams and re-read the PMBOK. That way, you would know the kind of things you should concentrate on, rather than reading and dozing off :)3. You should be a Project Manager first, before you follow my advise. It is very important to have actually undertaken each and every process listed in PMBOK, by yourself (even if you were not aware of the name of the process which you were involved in!),4. Just browse through the ethics book a day or two before the exam (you would have inadvertently followed ethics as a PM, even if you were not aware of it!),5. I had my exam from 0530 to 0930 in the evening. Generally I have my dinner at 0630 PM on other days. Result: Was kind of hungry in the middle of the exam. Moral: Schedule your exam in a time slot you are most active at.6. 200 questions in 4 hrs = 50-55 questions every hour. STICK TO IT. Any lags, and you won't have any "schedule compression techniques" left7. Days before the exam, take a print of all your project's performance reports use techniques described in control costs, control schedule, change control and control scope on the reports. It will immensely help you understand and "appreciate" the concepts listed in PMBOK,8. Be modest.
