Synopsis

Improve your comprehension, grow your vocabulary, and ignite your imagination with these unconventional Spanish short stories! This is Volume 2 of the international best seller, featuring eight brand new stories! In this book, you will find: Short stories from a variety of compelling genres, from science fiction and crime to history and thriller, so you'll have great fun listening, whilst learning a wide range of new vocabulary! Stories broken down into manageable chapters, so you always make progress with the story and feel a sense of achievement without great difficulty listening! Realistic amounts of new vocabulary, so you're not overwhelmed by complex words. Instead of pausing to look up every word, you'll absorb new vocabulary from the context of the story, and experience that moment when you say: "I totally understood that sentence!" Carefully-written Spanish using straightforward grammar that is comprehensible for beginner and intermediate level learners. You'll enjoy listening and learn new grammatical structures without any feelings of overwhelm or frustration. Plenty of natural dialogues in each story, so that you can learn conversational Spanish whilst you read, and improve your speaking ability at the same time! Regular plot summaries, comprehension questions, and word reference lists, so that help is always on hand when you need it. You'll be able to focus on enjoying listening and having fun, rather than fumbling around with dictionaries. A five-step plan for listening to the stories in this book the smart way. These step-by-step instructions show you exactly how to make the most out of the book and maximize your learning! Spanish Short Stories for Beginners has been written especially for students from beginner to intermediate level. The eight captivating stories are designed to give you a sense of fun while listening, so you can enjoy Spanish again!

Customer Reviews

The volume two of the Spanish Short Stories for Beginners is a continuation of the first book. This book has eight stories that are longer than the first. The stories are definitely using more complicated words than the previous book. It does have the vocabulary at the end of each story to give the Spanish to English translation. The questions and answers are in the back of the book of each story as well. You may have to read the stories several times before you can understand them because they are much harder to me than the previous stories. In the beginning of each book, there are helpful tips to give you a better understanding about how to read and understand the stories. I was able to read this book for free in exchange for my honest and unbiased opinion.

Wonderful wonderful and more wonderful. When I was beginning to learn Spanish all we had was rosetta stone type of thing. This would of been great. The words help you learn the basic language but adding them into a story and that holds the persons interest. They are really nice. Very easy to follow and because the words are easy to read. They really help the person learn as they go. That is really great! The stories flow and have great plot content. They make me want to read another book. This is how learning should be. Just plain fun. I absolutely love it. I received this free in exchange for an honest, unbiased and nonpaid review.

This book isn't mean to be rated using s rating buttons for books. I had to click on of them to get to the typing part so I chose predictable. But of course it is. This is a Spanish reader for those seeking to learn Spanish, like me. It's written with the learner in mind and the story aspect is just to help you learn new words. So far, I've found it very helpful in that regard. I am reading it using Kindle so it gives me the ability to click on a word and have it translated into English so if I don't know one and can't figure it out using context I can still learn. This book was \$1.99 when I purchased it and it's worth every penny as a way to help learn a second language.

Fun, fun, fun!!! Oh wow, so I've read a few of Mr. Richards' short stories in different languages (and about to start another one here shortly), and they are tons of fun and I honestly do believe that I am catching on to some words. I love the way he starts out with telling how the easiest way to try to learn it through reading, then to go back with a little bit more understanding, and then again as you catch on more. But he makes this learning fun! It's not the monotonous drowning of repeat the word

over and over. I was fortunate to have received this book complimentary in exchange for my honest and unbiased review.

These books are great for building your confidence and impressing your friends. I always thought I had to be fluent in Spanish before I started to try and read Spanish but I have found that just as when you read English you often skim many of the words and still comprehend it. So I read this one or two pages at a time and looked for the words I knew then I had the gist of the story and could review the vocab and the questions. After that I reread the whole chapter and looked up words I didn't know. Then I read it a third time all by myself. I couldn't believe I was reading a story in Spanish but it really felt good. The only down side is these stories aren't as interesting as some of the ones in other books of their kind. The stories are a bit juvenile in plot. On the plus side though they do have a nicer cover material than some books

The Spanish Short Stories for Beginners Vol 2 is alot like the first one. These stories are a bit longer. The kids were not ready for some of the words. They need to learn a little more before we can get into this book. In a few weeks we will be able to revisit this book to learn some more vocabulary. The Spanish for Beginners ebooks have been a great help to me teaching my kids spanish. I received this product for free in exchange for a honest and unbiased review. My opinions are my own.

As a perpetual Spanish student, (20 years of beginner spanish) I finally decided to push myself and increase my understanding of spanish. This book is excellent for helping me to learn new phrases and for familiarizing myself with the language.

I enjoyed this book immensely. The stories are interesting and easy to read. The summary, vocabulary lists and small quizzes at the end of each chapter reinforce what was learned and boosts confidence.
