Synopsis

Have you ever wondered what separated you from the highly successful people? Is it because of their "luck"? Or could it be they were in the right place at the right time? While many people believe at least one of those circumstances to be the case, the truth of the matter is that the only difference which separates the highly successful from the rest of us is their daily routine and their mindset. It all can be summed up into one word: Habits. Those who are sitting on the top of their game created a routine or a series of habits that nearly ensured their success. Not only that, but in many cases they transformed their bad habits into long-lasting good habits. Discover: The Power of Your Habits Whether you realize it or not, your subconscious mind is always working, creating the world that you're telling it you see for yourself. There are universal laws governing the direction of our actions every day. Those who are attaining their dreams, achieving the success they envision, and are experiencing abundance on a daily basis have learned how to make the universe work for them and not against them. With the help of this book, you can take the universal laws and align them with your subconscious to discover any series of habits, so you can easily attain your long-held goals.
