# Calm, Cool, Collected: How To Demolish Stress, Master Anxiety, And Live Your Life

## Synopsis

"Learn how to embrace the b.s. of everyday life, keep your cool, and build the habit of happiness." We all have our fair share of problems, anxieties, and insecurities. This is inevitable. How we deal with these things directly dictates how happy, productive, and confident we are. Far too many of us remain victims of the ups and downs of everyday life.... But YOU don't have to. Inside this book you'll learn: How to "hack" your emotions and avoid feeling anything but happy The secret to avoid getting stuck in your head and "overthinking" things A happiness-inducing breathing technique that works in seconds How to let go of past trauma in your life that still tortures you 1 weird trick to "free" yourself from the neurotic voice inside your head An empowering daily morning ritual to transform your life ...and much, much more

## Customer Reviews

As an avid follower of David De Las Morenas and HowToBeast I really enjoyed reading this book. It opened my mind to a new way of thinking that I plan to incorporate into my everyday life. Easy to understand, clear examples, and very direct.

I very much enjoyed this book. "Calm, Cool, Collected" is about how to build character and inner strength over a long period of one's life. It is about refusing to accept negativity and enabling oneself to achieve. As always, David's style is light yet bold, fun yet to-the-point. I highly recommend this book.

I follow David De Las Morenas and his website How to Beast, so I was excited to check out this book when I heard about it. I was not disappointed. It is an inspiring read that really applies to everyone on a very personal level. I am very stressed out about a recent financial incident in my life and this book was able to live up to its name and keep me calm, cool, and collected.

I just bought this slim volume based on an automated recommendation, and am I glad I did! I've never heard of the author, who is apparently in his mid-twenties, but the true wisdom in this book has the power to create the biggest kind of shift possible. The author, David de las Morenas, credits the Stoic Philosophers, and especially Marcus Aurelius, as the inspiration for this book. I've read some of the Stoics, and books on Stoic philosophy as it relates to modern life (Tim Ferris is a huge proponent of utilizing Stoic ideas and reading the Stoics as a way to "hack" modern living), but somehow this book is a distillation of the most important aspects of those ideas into a glistening, crystal clear droplet. Once I started the practice of staying open and refusing to close down no matter what happened to me, life became a wonderful adventure. The practices outlined in this book are spiritual life teachings of the highest order. I am a long time seeker of spiritual wisdom, and I can pretty much guarantee that following the teaching of this book will CHANGE YOUR LIFE. Buy it!

Very rarely do you get to read something that "blows your mind" something revolutionary something for our new times. Stress is a very real thing in this day and age of our times, anything that helps alleviate and strengthen the coping mindset, is priceless! Thank you again David for a fantastic book.

I really liked the ideas that were presented in this book. Very Buddhist. I recommend this book to all men, regardless of age.

Short yet effective book. It definitely is already changing my viewpoint on life today. I went from stressing about a package in the mail and being late for work. Instead of letting it drive my day, I accepted reality and continued on with my day. Ultimately, I still got my package, received a job opportunity (applied for this only 2 days ago) and internship offer in my intended field ALL IN THE SAME DAY :) :) :) Can't wait to make these practices second nature. It goes to show you, if you don't allow life to consume you with negativity, opportunities are right behind the corner!!!!!!!!!!!!!!

This book embodies everything I believe in. I've delved into Marcus Aurelius' meditations and love his work. This book is straight to the point, great short read that give you actionable pointers to help alleviate stress and embrace a stoic lifestyle. Highly recommend.
