Customer Reviews

Please keep in mind this book does not include the music for Lindsey's original songs, but rather renditions of some of her favorite songs. I was unaware of this because there was very little information about the book when I preordered it. My daughter still loves it though.

Bought this for my daughter and she started playing it as soon as it came to the door. Product is as described. She wants more like this from Lindsey.

I bought this for my daughter and she LOVES it! She's an intermediate to advanced student and found it a little challenging but a lot of fun!

Very good arrangements for violin/ love the cd accompaniment and demos. It's actually cool just to listen to also. I've been playing for years but was looking for something fun and different also challenging to work on for fun. This book and cd fit the bill

excellent book, it takes some time to practice some of the pieces (not all of them are difficult) but they all sound refreshing and the accompaniments are of a very good quality! This is not a book entirely accessible to beginners, or maybe even intermediate players.

This Book CD combo is a great way to try and mimic the artist. I think that the difficulties of the songs is measurable especially for the early learners, but having the book will make things easier for sure. My son enjoys this very much..

I wish they sold/printed the sheet music for the accompanist rather than on a CD. CD is good for practice but if wanted to perform for a recital, live accompanist would be better than playing with a CD.

Bought to attempt, but I am not at a high enough level of playing to use yet. Will hold onto and bring back out when I am more learned.
